

SMART LINES

CONNECT LINES WITH FLAT ELEMENTS
TO REACH NEW POSSIBILITIES AND
AWAKEN THE LITTLE DESIGNER

JUST
BLOCKS

crossing lines

vertical line

horizontal line

diagonal line

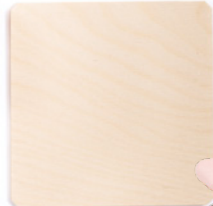

stick

flat large

flat medium

WHY IS THE SMART LINES TEAM SO COOL?

The milled lines in the basic blocks match the flat blocks to create a more stable structure. The fun is in choosing the lines from the group of 4 that will give a direction to the flat piece.

Be careful, lines are very smart and sometimes you have to rotate the block to find the right connection or even change for another line.

Get to work!
😊

STABILIZE YOUR IMAGINATION

LET'S INCREASE THE STATICS OF THE BUILDING

These are just few examples
Now it's your turn! 😊

Activate your imagination and create your own spatial construction.

get inspired by our open-ended play!

Just Blocks

Toy designed to play in a dry environment.
The set contains small elements, remember that very young children should be supervised during the play.
If damaged, splinters can appear. Remove the damaged block from the set and contact us.

This product conforms to Standard Consumer Safety Specification for Toy Safety (ASTM F963-17) and European toy safety Requirement EN-71 part 1, 2 and 3.
